HOT ROD WHERE IT ALL BEGAN

MORE HRM CAMAROS ▶

Did this issue get you all warmed up for more Camaro action? Then get in on HOT ROD's latest F-body project starting in the Mar. '07 issue on newsstands January 16th. The car is the '73 seen here in bare metal, and you'll be able to see how we took this beater and turned it into the F-Bomb, loaded with 1,500 hp of twin-turbo small-block power. And once it's done we're gonna drive it every day just to prove it can be done. Besides, you'll want to stay tuned to HOT ROD anyway for updates on the upcoming '09 Camaro. See ya there. **HRM**
