427 SBC - Fuel Injected

630 HP with 595 TQ with pump gas. One of our favorite all around small block combo's. This engine sounds incredible and revs faster than you can think. Unbelievable throttle reponse and will rev to 7000 RPM. 10 second quarter mile power on 91 octane.

Complete assembly is fully balanced and blueprinted to our specifications. The motor is then broken in on the engine dyno and tuned for maximum power.
