572 BBC - Naturally Aspirated

750 HP with 730 TQ with pump gas. These combinations have been proven and developed at NRE over the years providing amazing horsepower per cubic inch, while still being reliable power plants. THESE ENGINES ARE DESIGNED TO BE DRIVEN HARD. One of my favorite engines we build. This engine sounds unreal, with power everywhere anytime, yet docile enough to drive anywhere. Run 10's all day long at 130+ MPH.

Complete assembly is fully balanced and blueprinted to our specifications. The motor is then broken in on the engine dyno and tuned for maximum power.

HOT ROD SERIES

-----**\$15,500**
