441 LSX - Fuel Injected

820 HP with 680 TQ with race gas. These fuel injected motors explode with power when you crack the throttle. Maintain drivability while still creating real hot rod horsepower. This engine is disguised as a small block that eats big blocks for breakfast.

Complete assembly is fully balanced and blueprinted to our specifications. The motor is then broken in on the engine dyno and tuned for maximum power.

WARRIOR SERIES
